### **COMPANY PROFILE**

Freedom Machinery is a worldwide buyer and supplier of NEW, REBUILT & SECOND HAND quality tube & pipe mill equipment, coil processing and steel mill equipment. Our sales staff has total experience exceeding 60 years.

Depending upon our customer's budget and needs, Freedom Machinery can supply one machine or a complete plant, turnkey - including operator training, consulting and upgrading always with honesty and integrity.

Our extensive customer database and our close relationship with other industry leaders and new machinery builders have enabled us to source quality machinery both domestically and overseas. For over ten years, we have been able to break through the international boundaries and sell machinery worldwide country to country.

Upon our customer's request, Freedom Machinery can also provide such services by offering a Complete & Integrated Service. This service could include machinery dismantling, match-marking & packing, shipping & tracking, engineering & consulting.
